

# Slide 2

# Slide 5

# **IAPD Learning Objectives**

- Purpose
- Stakeholder responsibilities, timeframes, and funding thresholds for submissions
- Required components
- Identify tools and how to create a budget
- IAPDs for Maintenance and Operations
- When APD Updates are needed
- FNS review criteria and processing steps

•5

# Slide 6

# **PURPOSE**

- Prior approval and requests use of Federal funds to carry out the proposed project
- Specifies automation design, development and implementation activities, including acquisitions

, , , , , , , , , , , , , , , , , , , ,		
, , , , , , , , , , , , , , , , , , , ,		

#### **TIPS FOR SUBMITTING AN IAPD**

- Well written and meet all review criteria
- Incomplete or poorly written documents will result in delays or disapproval
- Don't underestimate FNS review time

### Slide 8

### An IAPD tells us:

- Who you are
- What it is you want to automate and what benefit it is to FNS
- Why you want to automate it
- When you want to do this
- How you want to accomplish it
- How much it will cost
- Who pays for it

# Slide 9

# As the Culmination of the Planning Process, the IAPD:

- Provides results of the analysis and feasibility of various automation alternatives
- Describes the proposed automation project
- Provides the initial management plan for acquiring, developing, testing, and implementing the selected alternative

1			

ibmission T	hresholds
Program/F	unding Source
SNAP	wic
For all projects >\$5 million total project costs	For all projects requesting funding ≥\$500,000 total costs
	HINT: It's in the 901!
	ProgramF SNAP For all projects >\$5 million

# Slide 11

# **REMEMBER:**

Costs that otherwise might be approvable, may be disallowed if you do not obtain prior approval of your IAPD from FNS.

Slide 17

Slide 18

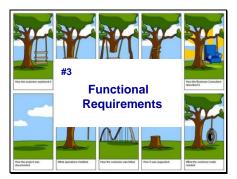

# Components of the IAPD

# Slide 20

# Slide 21

# #2 Executive Summary Describes business need at a high-level Identifies the stakeholders Summarizes advantages, challenges and shortcomings the proposed system will address Identifies resources required States the technical, financial, and program impacts of the project

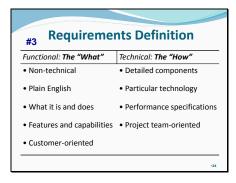

# Slide 23

# Functional Requirements Document

Comprehensive description of functions to be included in the system

#3

- Federal SNAP requirements defined in ADP/CIS Model Plan (7 CFR 272.10)
- Federal WIC mandatory and optional requirements are available in WIC FRED

lid	25

# **Good Requirements are:**

- Complete
- Valid based on legitimate business needs
- Clear unambiguous and precisely written
- Consistent
- Feasible
- Testable
- Traceable linked to a source

Slide 26

- Overview of the Feasibility Study

   A preliminary study that determines whether the project being considered is technically, financially, and appearing ally viable and operationally viable
  - Is directly linked to the Functional Requirements Document (FRD) in that the FRD is the baseline against which various approaches are assessed
  - Must include an <u>alternatives analysis</u>

Slide 27

# **Cost-Benefit Analysis**

- Determines which alternative will provide the greatest benefits relative to its costs
- Identifies the tangible and intangible benefits
- Provides the estimated cost of developing and operating each alternative

	,		

# FNS Cost Benefit Analysis Requirements

• IAPD must show a <u>meaningful</u> cost comparison was completed.

#5

#6

#6

- Requirement for demonstrating the number of years to break even is eliminated.
- Tracking and reporting on the CBA beyond the initial approval is eliminated.

•28

# Slide 29

# General System Design (GSD)

- A broad high-level description of how the system will look from the technical side
- Describes generic system architecture with possible components and processes

# 23

# Slide 30

# General System Design (GSD)

- Combination of narrative and technical diagrams
- Identifies overall logic flow and systems functions desired
- Identifies performance requirements
- Identifies operating environment

# Slide 32

# **Project Management Plan**

- Project oversight
- Governance
- Reporting requirements
- How you will achieve professional project management
- The State's own roles, responsibilities and expectations

# Slide 35

# **Resource Requirements**

- •Describes resources the State expects to use
  - Staff
  - •Funding
  - Facilities
- •Requests funding from FNS
- •Ties closely to Project Management Plan
- $\bullet \mbox{Describes}$  all staff resources that will be used 10% or more throughout the project

#10	Mile So im	edule of Activestones and Debugger of key design, desplementation tasks, even elife of the project	Deliverables evelopment, and
Fe	re to clude ederal eview	- 100 (100 (100 (100 (100 (100 (100 (100	- 3

# #11 Completing the IAPD Budget

- Capture all anticipated expenditures of project implementation phase described in detail
- Reflect the duration of the development/ implementation phase broken out by FFY and quarter.
- Provide narrative text as needed to support line items.

Slide 38

Slide 39

# **IAPD Budget - Areas of Concern**

- Failure to include indirect costs
- Program staff costs not included or charged inappropriately

•39

# Cost Allocation Plan - #12 Do I Need One?

If it's an integrated system:

- State agencies must develop and submit a methodology for allocating costs among benefiting programs.
- Direct charging of project costs should be done to the maximum extent possible.

46

### Slide 47

# Cost Allocation Methodology (CAM) Toolkit

- Helps States determine how to allocate software development costs to Federal and State benefiting programs over the system development lifecycle
- Expedites the Federal approval process for State Cost Allocation Plans

-47

•			
•	 		
•			

# **Security Plan**

#13

HINT: It's in the 901! • Provides the approach and requirements of the security plan • Describes the physical, electronic, and operational security of

- the system •Hardware
  - •Software
  - •Data Communications
  - Facilities

Slide 50

# **Waiver of Depreciation**

#14

FNS requires State agencies to depreciate the cost of equipment purchases over the expected life of the equipment

UNLESS

a formal waiver is requested

Slide 51

# **Training Plan**

#### #15

- Describes how all users will be trained
- Describes the methodologies to be used
- Defines materials to be developed
- Includes travel in the training budget
- Provides a timetable for training
- Addresses on-going training needs

# **Testing Plan**

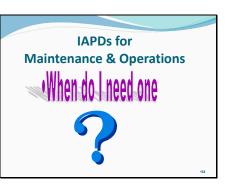

### #16

- Test Methodology
- Results Tracking Methodology
- Analysis Process
- State and Contractor Roles
- Standards or Pass/Fail Criteria
- Go/No-Go points
- Contingency Plan

..

# Slide 53

# IAPD for M&O

Prior approval is required when it includes significant hardware upgrades, platform changes, and/or software enhancements.

No approval needed for routine operations, including corrective, adaptive or perfective changes – without introducing additional functional capability.

55

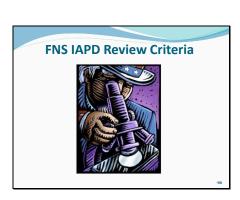

# Slide 56

	Maintenance and Operations Decision Table Examples							
	IAPD Required	IAPD Not Required						
	Replacement of mainframe and associated peripheral devices	Routine hardware replacement of routers, hubs, storage devices that does not affect type of platform						
Hardware	Architecture change from client/server or distributed system to web-based	Routine PC replacement (usually planned in advance on a cycle replacing a percentage of PCs on an annual basis)						
	Increased storage and/or processor capacity to meet increased caseload requirements	Upgrade of peripheral devices such as printers or scanners						
		Procurement for leased hardware and peripherals needs to be rebid						
Source	e: FNS Handbook 901	-56						

	Maintenance and Operations Decision Table Examples							
	IAPD Required	IAPD Not Required						
	Software enhancement adds new functionality to the existing certification/eligibility or issuance system	Routine software maintenance, including fixes, patches, and upgrades that do not introduce additional functional capabilities to the system						
Software	Implementation of Enterprise Architecture	Routine software license renewals						
		Routine support activities that normally include corrective, adaptive, and perfective changes, without introducing additional functional capabilities						
Source	FNS Handbook 901	-57						

	Maintenance and Operati Example	
	IAPD Required	IAPD Not Required
Services	Consultant services are required to develop and implement software upgrades to an existing system that adds new functionality to the system	Contract for routine maintenance and operations services is due to expire, needs to be rebid; SOW does not include any enhancements or upgrades to software that will add functionality to the system
Sou	rce: FNS Handbook 901	-58

# Slide 59

### **FNS IAPD Review Criteria**

Adequately identifies objectives and needs of the system

•Did you make your business case?

# Slide 62

### **FNS IAPD Review Criteria**

Provides an acceptable plan for proceeding

- Are your goals and objectives feasible and reasonable?
- Are your goals achievable?

# Slide 63

# **FNS IAPD Review Criteria**

Detailed project plan of all activities

•Did you fully describe the scope of the design, development, and implementation activities?

-63

# **FNS IAPD Review Criteria**

Acceptable Alternatives and Cost-benefit Analyses

 Do the improvements or benefits justify the cost of the chosen alternative?

# Slide 65

### **FNS IAPD Review Criteria**

Adequacy of funds, resources, and skills

- Are committed funds, skilled staff and other resources adequate to succeed?
- Does the proposed system duplicate or conflict with other systems or efforts using the same resources?

# Slide 66

# **FNS IAPD Review Criteria**

Comprehensive project management plan

 Does the State demonstrate the ability to manage the project professionally?

-65

### **FNS IAPD Review Criteria**

Includes Line Item Budget by FFY and Quarters and the sources and amounts of Federal and non-Federal funding

 Is the budget in a clear format, broken down by phase, FFY, and quarters with narrative explanations of costs as needed?

# Slide 68

# **FNS IAPD Review Criteria**

Approvable Cost Allocation Plan

 Are costs allocated to all benefiting programs, using a reasonable method?

+68

# **IAPD Approval Conditions**

- General Related to availability of Federal funds and compliance to FNS regulations
- Specific Funding may be approved for only a specific time period or incrementally based upon specific conditions

0

# Slide 71

# **Retroactive Approval**

State agencies are urged to communicate with FNS early and often.

Retroactive approvals are granted only in the most extreme circumstances.

Poor planning or communication is not considered a valid reason for retroactive approval of funding.

-71

# Slide 72

## **IAPD Summary**

- Purpose
- Responsibilities, timeframes, and funding thresholds
- Required components
- Tools to complete an IAPD budget
- When an IAPD is required during M&O
- FNS review criteria
